MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ("MOU") is entered into this _______ day of March, 2007, between the Bay Meadows Racing Association ("BMRA"); the California Authority of Racing Fairs ("CARF"); Golden Gate Fields Racing Association ("GGF") and the California Exposition & State Fair ("Cal Expo"). It is acknowledged by Cal Expo and BMRA, CARF, GGF that the implementation of the undertakings of this MOU are subject to the California Horse Racing Board ("CHRB"), approving the decrease and rearrangement of the contemplated racing weeks, days or races per day in Northern racing programs.

In recent years, a harness meet has been conducted at Cal Expo on a year around basis except for the months of August and September. Because Cal Expo has historically conducted a fair race meet in the latter part of August extending through the Labor Day Weekend, it was necessary for the harness horses to vacate the facilities at Cal Expo in early August. The need for the harness horses to vacate the facilities at Cal Expo for fair racing resulted in a hardship to those connected with harness horse racing at Cal Expo and was a deterrent to harness horses remaining in the state and coming to Cal Expo to race. If the harness industry were to continue to exist and prosper in California, it was felt that the harness industry needed the uninterrupted use of the Cal Expo facility. The request of continuous harness dates were subsequently granted by the CHRB and have continued through the 2006 Calendar. Subsequently, Cal Expo requested the return of their traditional fair racing dates for 2007.

The CHRB has directed the Northern California Racing industry (fairs, tracks, operators and the Thoroughbred Owners of California (TOC)) to meet and provide the CHRB with a compromise 2007 racing calendar that substantially reduces overlap; shortens the racing days in a week; reduces the number of races per day, in each the respective programs. In short form, a consolidation of the race program in Northern California with all parties sharing the burden.

As a result of the ongoing harness calendar, Cal Expo agreed to dedicate its facility exclusively to harness racing in order to determine whether the uninterrupted use of the facility would improve the state of harness racing in California. In doing so, Cal Expo realized that the loss of fair racing would result in an economic loss and it was desirous of being made whole through either a rearrangement of racing dates in Northern California or the combination of its historical fair dates with another fair as contemplated by Section 19549.1. (All references to Sections in this MOU are to those in the California Horse Racing Law.)

Because of a recognized shortage in the horse population, Cal Expo, BMRA, CARF, GGF and TOC believe that a continued decrease and rearrangement of racing dates in 2007 in Northern California is in the best interest of racing.

It is also thought that such decrease and rearrangement of racing dates is also in the best interest of the fairs conducted at Ferndale, San Mateo (SMCF), Stockton, and Fresno. In 2008, CARF will submit a plan that generally will focus on a consolidated race calendar; and Cal Expo will be a part of this consolidation with a return to a fair race meet supported by the Northern California racing industry.

BMRA, CARF and GGF agree to replace the revenues to Cal Expo that will be lost as a result of Cal Expo foregoing a fair race meeting in 2007; again, in the best interest of racing, by diverting to Cal Expo certain commissions that would be earned pursuant to Sections 19596.2 and 19601 by CARF, GGF, and SMCF, and BMRA from the importation of out-of-state, out-of-zone and international races on certain days when there is no live racing at said facilities. There shall be no diversion of funds generated for purses and no diversion of revenues generated through Advance Deposit Wagering.

As to the harness meet to be conducted at the Cal Expo facility during the months of August and September, 2007, Cal Expo shall request an ongoing date allocation for a harness race meet and not a fair race meet. BMRA, CARF, GGF and Cal Expo acknowledge and agree that conducting a harness meet at Cal Expo during the period of the State Fair is not tantamount to the overlap of a fair meet and a private association and, therefore, the provisions of Section 19607.5(b) 2 are not operative.

Cal Expo agrees that it will not file an Application to conduct a fair race meet at a venue other than Cal Expo during the 2007 fair racing dates that were previously allocated by the CHRB to the Cal Expo facility.

BMRA, CARF, GGF and Cal Expo agree to support the approved Northern California racing Calendar, as approved by the CHRB which consolidates, decreases and allows for the rearrangement of racing dates in Northern California,—in 2007. It is agreed by the parties that adherence to the terms of this Memorandum of Understanding and the rearrangement of racing dates in Northern California approved by the CHRB is with the full support of the TOC.

BMRA shall use its best efforts to cause the SMCF to agree that the commissions it would receive from the importation of out-of-state, out-of-zone and international races on the two Mondays, August 15th and 22nd, pursuant to Sections 19596.2 and 19601, shall be paid over to Cal Expo.

Further, BMRA agrees that the commissions it would receive from the importation of out-of-state, our-of-zone and international races on Monday, August 29th; Wednesday, August 31st; Thursday, September 1; Wednesday, October 5th; Thursday, October 6th; Wednesday, October 12th and Thursday, October 13th, pursuant to Sections 19596.2 and 19601, shall be paid over to Cal Expo. If the Expense Fund generated on the aforementioned seven days is inadequate to cover the simulcast expenses incurred on those days, the amounts payable hereunder to Cal Expo in excess of \$325,000 shall be reduced by the amount of the deficiency.

BMRA shall use its best efforts as Manager of the SMCF to cause the 2007 SMCF to card a number of mixed breed races at least equal to the number carded by it and Cal Expo in 2004. During the 2007 SMCF, BMRA also undertakes to make 125 stalls available to mixed breeds at Bay Meadows. Cal Expo and BMRA shall use their respective best efforts to cause NCOTWINC to allocate some of the funds previously allocated to Cal Expo for advanced stabling, to Pleasanton in order to provide stabling for horses that, in the past, had gone to Cal Expo.

To the extent that there is available purse funds, BMRA, as Manager of the SMCF, shall cause those stakes races for breeds carded at Cal Expo in 2004 to be included in the stakes schedule of the 2005 SMCF and shall cause the two thoroughbred stakes races carded at Cal Expo in 2004 to be included in the 2005 stakes schedule at either BMRA or SMCF.

During the one year experimental concept in 2007, Cal Expo, as the operator of a harness meet, consents to the importation during the BMRA and SMCF meets of out-of-country races after 5:30 PM Pacific Standard Time, provided the payment to Cal Expo in connection with the importation of such races is at least as favorable as those now being made by BMRA and Hollywood Park to the night industry.

BMRA, CARF, GGF and Cal Expo acknowledge, with full support of the TOC, that the rearrangement of the 2007 racing dates herein contemplated is nothing more than an continuation of the past two years practice memorialized by this agreement and will not be cited by either BMRA, CARF, GGF or Cal Expo against the other in discussions regarding the future allocation of racing dates. However, BMRA, GGF and Cal Expo acknowledge to each other that the Labor Day Weekend represents important and vital racing dates for their respective racing meets and need to be maintained by both of them if the harness race meet experiment is not continued in the future. This being stated, all efforts will be made to work collectively on a 2008 and future racing calendars for Northern California that return the historical Fair racing dates to Cal Expo, based on this accommodation.

CA Authority of Racing Fairs Legislative Report - Last 10 Days 4/20/2007

AB 107 (Smyth) Public contracts: prospective bidders: unauthorized aliens. (I-01/04/2007 html pdf)

Status: 04/10/2007-In committee: Set first hearing. Failed passage. Reconsideration granted.

Current Location: 02/20/2007-A B. & P.

Digest: The State Contract Act authorizes the Department of General Services, or any other department with authority to enter into contracts, to require prospective bidders for state contracts to complete a questionnaire and financial statement regarding the prospective bidder's financial ability and experience in performing public contracts.

This bill would require any questionnaire used pursuant to these provisions to require each prospective bidder to certify under penalty of perjury, that none of the prospective bidder's employees are unauthorized aliens, as defined.

By requiring prospective bidders to certify that the questionnaires have been answered under penalty of perjury, this bill would expand the scope of the existing crime of perjury, and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

Laws: An act to add Sections 10170, 10334.1, and 10382 to the Public Contract Code, relating to public contracts.

AB 234 (Eng) Marriage and family therapy. (A-04/19/2007 httml pdf)

Status: 04/19/2007-Read second time and amended.

Current Location: 04/19/2007-A APPR.

Digest: Existing law makes the Board of Behavioral Sciences responsible for licensing and regulating the practice of marriage and family therapy and makes a violation of these provisions a crime.

Existing law requires an applicant for the marriage and family therapist licensure examination to complete specified experience, with limits on the amount of experience that may be earned in certain areas of emphasis, including professional enrichment activities, and subject to various hourly limitations.

This bill would impose a 125-hour limitation on experience earned providing personal psychotherapy services via telemedicine, as defined, and would modify the definition of professional enrichment activities for these purposes. Under existing law, trainees and interns may have no proprietary interest in their employer's business.

This bill would additionally provide that trainees and interns may not lease or rent space, pay for furnishings, equipment or supplies, or in any other way pay for the obligations of their employers. By revising this provision, this bill would expand the scope of an existing crime, thereby imposing a state-mandated local program. Existing law provides that education gained outside of California applies toward the marriage and family therapist licensure requirements.

This bill would instead specify that education gained while residing outside of California applies toward the licensure requirements.

The bill would make other technical and conforming changes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs

mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason. Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

Current Location: 04/19/2007-A APPR.

Digest: (1) Existing law, the Gambling Control Act, provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission. Under the act, a corporation is ineligible to receive a license to own a gambling enterprise unless the conduct of controlled gambling is among the purposes stated in its articles of incorporation, and the articles of incorporation have been submitted to and approved by the commission.

This bill would authorize the commission to delegate to staff the approval of articles of incorporation, statements of limited partnership, and other entity filings that are required to specifically state that gambling is one of the purposes for which the business entity is formed.

(2) Existing law relating to legalized gambling defines and regulates controlled games. Existing law prohibits a player fee from being calculated as a fraction or percentage of wagers made or winnings earned. Existing law also authorizes flat fees on each wager to be assessed at different collection rates, but no more than 3 collection rates may be established per table.

This bill would increase that amount to 5 collection rates per table.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

Digest: Existing law requires the Department of General Services, in consultation with the State Energy Resources Conservation and Development Commission, to ensure that solar energy equipment is installed, no later than January 1, 2007, on all state buildings and state parking facilities, where feasible.

This bill would require the department to ensure that solar energy equipment is installed no later than January 1, 2009, on these buildings and facilities, as well as state-operated swimming pools that are heated with fossil fuels

or electricity, where feasible.

Existing law requires that solar energy equipment be installed, where feasible, as part of the construction of all state buildings and state parking facilities for which construction commences on or after January 1, 2003. This bill would change this requirement to apply to construction commencing on or after January 1, 2008. Existing law provides that it is feasible to install solar equipment if adequate space on or adjacent to a building is available, if the solar-energy equipment is cost-effective, and if funding is available.

This bill would specify that funding for purposes of determining if installation is feasible may be funding from the state or another source.

The combined cost of preferences granted pursuant to this provision and any other provision of law may not exceed \$100,000, subject to specified criteria. Current Location: 04/19/2007-A APPR.

Digest: The Gambling Control Act provides for the licensure of certain individuals and establishments involved in various gambling activities, and for the regulation of those activities, by the California Gambling Control Commission. The act provides for the enforcement of those activities by the Division of Gambling Control within the Department of Justice.

Existing law requires the commission, by regulation, to provide for the formulation of a list of persons who are to be excluded or ejected from any gambling establishment, to distribute that list to all owner licensees, and to provide notice to any persons included on the list. Existing law requires the commission to adopt regulations

establishing procedures for the hearing of petitions by persons who are ejected or excluded from licensed premises pursuant to these or other specified provisions.

This bill would, instead, require that the above duties relating to persons who are to be excluded or ejected from any gambling establishment be performed by the Division of Gambling Control. The bill would allow the commission to recommend to the division the names of persons it believes should be included on the list of those persons. The bill would make other technical, conforming changes.

Digest: Existing law requires fairs and racing associations to pay a certain percentage of the handle from races to be paid to the state as license fees.

Digest: Existing law sets forth various requirements for energy and design efficiency in the construction of nonresidential buildings. Existing law authorizes state agencies to submit, and requires the Building Standards Commission to receive and review, proposed building standards for adoption, approval, publication, and codification.

This bill would require the California Environmental Protection Agency (Cal-EPA), by July 1, 2009, in conjunction with a working group of certain state entities that it would coordinate, and, in consultation with specified public and private sector organizations, to develop, adopt, and make available a set of minimum green building standards for specified nonresidential public sector-commercial buildings. The standards would have to meet and encompass, at a minimum, the United States Green Building Council's (USGBC) Leadership in Energy and Environmental Design (LEED) gold rating for new construction and major renovation. The California Building Standards Commission would be required to review these standards to ensure that they exceed and are not in conflict with the existing standards in the California Building Standards Code. Before adopting the set of minimum green building standards, Cal-EPA would be required to hold 2 public workshops.

The bill would require Cal-EPA, on or before July 1, 2010, to submit the set of minimum green building standards to the California Building Standards Commission for adoption by that commission in the California Building Standards Code. The commission would be prohibited from reducing the minimum standards proposed by the agency but would be authorized to revise those standards. New public sector-commercial buildings constructed on or after July 1, 2012, that are 50,000 square feet or greater would be required to meet the minimum standards that are adopted by the California Building Standards Commission. A new public sector-commercial building constructed on or after July 1, 2012, that is less than 50,000 square feet or greater would be required to meet the adopted standards unless the owner of the building meets criteria, based on economic considerations, developed by CAL-EPA for granting a waiver.

Digest: (1) Existing law creates a general lien on livestock in possession of a livestock servicer to secure the performance of the obligations of the owner to that person. Under existing law, if the owner fails to satisfy those obligations, the livestock servicer may sell the livestock after obtaining the consent of the owner, a court order, or judgment, and recover the costs of the obligations of the owner and lien enforcement, as specified. Existing law also creates a general lien, dependent upon possession, for veterinary proprietors and veterinary surgeons for their compensation in caring for, boarding, feeding, and medical treatment of animals.

This bill would permit a general lien on racehorses in the possession of a breeder, trainer, owner, branding farm, fair training facility, or racetrack for their compensation in caring for, boarding, feeding, and medical treatment of racehorses. The bill would permit that breeder, trainer, owner, branding farm, fair training facility, or racetrack, if the obligations of the owner of the racehorse are not satisfied, to sell a racehorse that has a value of \$4,000 or less without obtaining the consent of the owner, court order, or judgment, if the amount of the lien is at least 50% of the value of the racehorse and notice is sent to the owner prior to the sale of the racehorse, as specified. The bill would require that the notice of sale be signed under penalty of perjury. By creating a new crime, the bill would impose a state-mandated local program.

The bill would also express the intent of the Legislature that a racehorse sold pursuant to these provisions may not be sold to a person who intends to possess, import into or export from the state, or to sell, buy, give away, hold, or accept a racehorse with the intent of killing, or having another kill, that racehorse if that person knows or should have known that any part of the racehorse will be used for human consumption, as specified.

Digest: Existing law establishes the California Child Support Automation System to provide for the sharing of information relating to child support obligations. Existing federal law provides that certain gambling winnings are subject to federal income tax withholding.

The Horse Racing Law generally regulates the horse racing industry, including satellite wagering facilities. This bill would require a satellite wagering facility, if a wagerer's winnings are subject to federal income tax withholding, to determine if the wagerer is listed in the California Child Support Automation System and, if the wagerer is delinquent in his or her child support obligations, to withhold from the wagerer's winnings the amount of any delinquency. The bill would require the facility to forward the amount withheld to the Department of Child Support Services.

Existing federal law, the Indian Gaming Regulatory Act of 1988, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Covernor to negotiate and conclude compacts, subject to ratification by the Legislature.

This bill would state the intent of the Legislature that each tribal gaming compact, or amendment to a tribal gaming compact, negotiated by the Covernor include provisions requiring the tribe to withhold the amount of delinquent child support obligations from the gambling winnings of any person whose winnings are subject to federal income tax withholding requirements.

Existing law establishes in each county in which Indian gaming is conducted an Indian Gaming Local Community Benefit Committee and authorizes each of these committees to select grants to local jurisdictions, to be used for specified purposes, from funds made available to the county from the Indian Gaming Special Distribution Fund.

This bill would, in addition, allow an Indian Gaming Local Community Benefit Committee to select grants to the California Department of Transportation for the purposes authorized by these provisions.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The Galifornia Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Status: 04/18/2007-in committee: Set, first hearing. Hearing canceled at the request of author.

Current Location: 04/18/2007-A G.O.

Digest: Existing law authorizes advance deposit wagering to be conducted, with the approval of the California Horse Racing Board. Under existing law, advance deposit wagering is defined as a form of parimutuel wagering in which a person residing within California or outside of the state establishes an account with a licensee, boardapproved betting system, or multijurisdictional wagering hub located within California or outside of the state. This bill would remove from that definition, and from all provisions related to the authorization of advance deposit wagering, the reference to a multijurisdictional wagering hub located outside of the state.

Under existing law, in order for a licensee, betting system, or multijurisdictional wagering hub to be approved by the board to conduct advance deposit wagering, it must meet certain requirements.

This bill would add to those requirements that the employees who operate and administer the advance deposit wagering on a daily basis shall work in California.

Existing law requires the California Horse Racing Board to adopt rules to license and regulate all phases of operation of advance deposit wagering for licensees, betting systems, and multijurisdictional hubs located in California.

This bill would require the rules adopted by the board to include a requirement that employees represented in the same or similar classifications be employed at a ratio of one employee for every \$20,000 in wagers handled by those licensees, betting systems, and multijurisdictional hubs.

Existing law specifies how the amount received as a market access fee from advance deposit wagers shall be distributed.

This bill would require that a specified amount of that fee be used to establish and administer a defined contribution retirement plan for California jockeys, as specified.

Under existing law, the provisions relating to advance deposit wagering will be repealed on January 1, 2008. This bill would delay the repeal date until January 1, 2011.

Digest: The Gambling Control Act provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission, and for the investigation and enforcement of those activities and establishments by the Division of Gambling Control within the Department of Justice. Under that act, a person is deemed unsuitable to hold a state gambling license if that person, or any partner, officer, director, or shareholder of that person, has a financial interest in a business or organization engaged in any form of prohibited gambling, as specified.

This bill would revise that provision by authorizing the commission to deem an applicant or licensee suitable to hold a state gambling license even if the applicant or licensee has a financial interest in another business conducting lawful gambling outside of California that, if conducted within the state, would violate California law, unless the applicant or licensee owns more than a 1% interest in, or has control of, that business.

Digest: Existing law provides that a thoroughbred racing association or fair may distribute the audiovisual signal and accept wagers on the results of out-of-state and out-of-country thoroughbred races during the calendar period the association or fair is conducting a race meeting, provided that the total number of thoroughbred races on which wagers are accepted statewide in any given year does not exceed the total number of thoroughbred races on which wagers were accepted in 1998. Existing law further prohibits the total number of thoroughbred races imported by associations or fairs from exceeding 23 per day on days when live thoroughbred or fair racing is being conducted in the state. However, that limitation excludes races imported that are part of the race card of the Kentucky Derby, Kentucky Oaks, and other specified races.

This bill would add the Dubai Cup to the list of imported races not subject to the limitation of 23 races per day. Under existing law, revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

Digest: Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of

tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to a tribal-state gaming compact entered into between the State of California and the Agua Caliente Band of Cahuilla Indians, executed on August 8, 2006. The bill would require that related revenue contributions be deposited into the General Fund and would also specify that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Existing law creates in the State Treasury the Indian Caming Special Distribution Fund for the receipt and deposit of moneys received by the state from certain Indian tribes pursuant to the terms of gaming compacts entered into with the state, and authorizes moneys in those funds to be used for specified purposes, including grants for the support of state and local government agencies impacted by tribal gaming. Existing law establishes the method of calculating the distribution of appropriations from the Indian Caming Special Distribution Fund for grants to local government agencies impacted by tribal gaming, and establishes County Tribal Casino Accounts for those purposes.

This bill would make a technical, nonsubstantive change to these provisions.

- (1) California's horse racing industry makes an important contribution to California's overall economy and is a vital component of the state's agricultural community.
- (2) The horse racing industry provides over 54,000 jobs industrywide and generates critical financial support for California's network of fairs.
