

AGENDA CALIFORNIA AUTHORITY OF RACING FAIRS BOARD OF DIRECTORS MEETING JOHN ALKIRE, CHAIR 12:30 P.M., TUESDAY, MARCH 3, 2015

Notice is hereby given that a meeting of the California Authority of Racing Fairs' Board of Directors will commence at 12:30p.m., Tuesday, March 3, 2015. The meeting will be held in Sacramento. 1776 Tribute Road, Conference Room, Sacramento, CA 95815.

AGENDA

- I. Date, time and location of next meeting: April 7, 2015
- II. Public Comment.
- III. Approval of minutes.
- IV. Report, discussion and action, if any, on CARF 2015 Legislative Program.
- V. Report on Statewide Totalisator Contract.
- VI. Report on developments at Fair Satellite Wagering Facilities.
- VII. Financials
- VIII. Executive Director's Report

1776 Tribute Road, Suite 205 Sacramento, CA 95815 Office: 916.927.7223 Fax: 916.263.3341 <u>www.calfairs.com</u>

NOTICE CALIFORNIA AUTHORITY OF RACING FAIRS BOARD OF DIRECTORS MEETING JOHN ALKIRE, CHAIR 12:30 P.M., TUESDAY, MARCH 3, 2015

Notice is hereby given that a meeting of the California Authority of Racing Fairs' Board of Directors will commence at 12:30 p.m., Tuesday, March 3, 2015. The meeting will be held in Sacramento. 1776 Tribute Road, Conference Room, Sacramento, CA 95815

CARF Board of Directors Meeting Toll Free Dial In Number: (800) 791-2345 Participant Code: 83711# Via Teleconference

In order to ensure that all meeting participants are able to hear discussions during the teleconference, we ask that teleconference participants call from a Landline Phone and Please Place Phone on MUTE While Not Speaking. The Public and members of the California Authority of Racing Fairs Board of Directors may participate from the following locations:

Alameda County Fair 4501 Pleasanton Ave. Pleasanton, CA 94566

Antelope Valley Fair 2551 West Ave. H, Suite 102 Lancaster, CA 93536

The Big Fresno Fair 1121 S. Chance Avenue Fresno, CA 93702 California State Fair 1600 Exposition Blvd. Sacramento, CA 95815

Monterey County Fair 2004 Fairground Road Monterey, CA 93940

San Mateo County Fair 2495 So. Delaware Street San Mateo, CA 94403 Stanislaus County 900 North Broadway Turlock, CA 95380

CALIFORNIA AUTHORITY OF RACING FAIRS Board of Directors Tuesday, February 3, 2015

MINUTES

A teleconference meeting of the California Authority of Racing Fairs (CARF) Board of Directors was held at 12:30 P.M., Tuesday, February 3, 2015. The teleconference meeting was hosted at the CARF offices, 1776 Tribute Road, Sacramento, California.

CARF Board Directors attending: Jerome Hoban, Dan Jacobs, Rick Pickering and Kelly Violini. Joining by teleconference: Chris Borovansky.

Staff and Guests attending: Christopher Korby, Larry Swartzlander, Heather Haviland, Amelia White, Raechelle Gibbons, Louie Brown, Richard Conway, Brian May, Jeanne Wasserman, John Quiroz, Allen Aldrich and Richard Lewis.

Agenda Item 1 – Date, Time and Location of Next Meeting: March 3, 2015. The next CARF Board of Directors meeting will be held Tuesday, March 3, 2015 in Sacramento.

Agenda Item 2 – Public Comment. Vice Chairman Jacobs suggested that Mr. Korby chair the meeting in Mr. Alkire's absence. Mr. Korby welcomed Mr. Hoban to the CARF Board of Members as a newly elected member.

Agenda Item 3 – Approval of Minutes. Ms. Violini moved to approve the meeting minutes as presented. Mr. Jacobs seconded, unanimously approved.

Agenda Item 4 – Report, Discussion and Action, if any, on CARF 2015 Legislative Program. Mr. Brown reported that the Legislature returned in early January and the deadline to introduce new bills is February 27. Mr. Brown reported that potential racing legislation appears light and he expects to see industry principals introducing spot bills as placeholders.

Mr. Brown stated that a very active current topic at the Capitol is Internet poker. Two bills have been introduced, both in the Assembly; one additional bill is likely to be introduced in the Senate. Assemblymember Mike Gatto has introduced AB 9 and Assemblymember Reggie Jones-Sawyer has introduced AB 167. AB 167 is more inclusive and allows for the horse racing industry to obtain a license, in addition to card rooms and casinos. AB 9 only provides licensing opportunities to card rooms and tribal casinos. In 2014 the tribes could not reach a consensus regarding Internet poker and the same situation exists this year. Issues dividing the tribes are the "bad actor" language (i.e. Poker Stars), the amount of money gaming tribes would be

required to give to non-gaming tribes and the involvement of the horse racing industry. Even if the racing industry is allowed to participate, it remains to be seen how viable securing a license would be. AB 167 sets the price of a license at \$10 million. The bills are currently in a 30-day wait period.

Mr. Brown reported that the selection of committee chairs for the 2015-16 regular session have been announced. Assemblymember Adam Gray (D-Merced) is the new Chair of the Assembly Governmental Organization (G.O.) Committee and Senator Isadore Hall, III (D-South Bay)is the new Chair of the Senate Governmental Organization Committee. Assemblymember Gray has a great relationship with fairs and will be a strong ally regarding fair and racing issues. Senator Hall has vast experience in the Central Valley as the prior Assembly G.O. Committee Chair.

Mr. Brown reported that Governor Jerry Brown released his proposed 2015-2016 state budget, and it includes a \$10 million appropriation for fairs. The budget includes \$3 million to assist with fair operations, to improve the financial stability of smaller fairs statewide and provides funding to support additional fair board training. The remaining \$7 million is a onetime allocation for deferred maintenance at fairs.

Mr. Pickering stated that in 2014 Senator Hall ran a piece of legislation that was sign into law that precludes the possession or sale of Confederate flags on state property, including fairgrounds. Mr. Pickering requested that fair managers ensure fair vendors are aware of this new law.

Agenda Item 5 – Update on Award of Totalisator Contract. Mr. Korby reported the Totalisator contract was awarded to American Totalisator (Amtote) after a lengthy RFP process and careful consideration by a working group of industry principals. Amtote is owned by the Stronach Group, the same ownership group that operates Santa Anita and Golden Gate Fields in California. The SCOTWINC and NOTWINC Boards, which awarded the bid, will now negotiate the terms of the contract with Amtote representatives. Implementation of the changeover in machinery will be conducted in the late fall/winter of this year. CARF and Amtote staff will work closely with the live racing and satellite network to manage any structural modifications required well in advance of the implementation date.

Agenda Item 6 – Financials. Mr. Korby reported that financials are included in the meeting packet and that Ms. Gibbons is available to answer questions.

Mr. Pickering stated that in light of the new fair appropriation in the state budget, CARF, CFA and CDFA should revisit the topic of license fees paid to F&E from live racing fairs. Mr. Hoban agreed that those discussions should move forward, but requested that they be delayed until after the state budget is finalized.

Agenda Item 7 – Executive Director's Report. Mr. Korby reported that Cal Expo planning to install a new inside safety rail and CARF staff is assisting in the preparation of the RFP. Cal Expo will be covering the cost of this installation.

Respectfully submitted, Heather Haviland

ASSEMBLYMEMBER ADAM C. GRAY 21ST ASSEMBLY DISTRICT For Immediate Release: February 25, 2015 Contact: Mike Lynch Phone: (916) 319-2021

Assemblymember Gray and Senator Hall Announce Joint Proposal to Regulate iPoker in California

SACRAMENTO – Assemblymember Adam C. Gray (D-Merced), Chair of the Assembly Governmental Organization Committee, and Senator Isadore Hall (D-South Bay), Chair of the Senate Governmental Organization Committee, today announced the introduction of identical legislation to regulate intrastate Internet poker (iPoker) in California.

"This iPoker proposal must include a strong regulatory framework that protects Californians," said Assemblymember Gray. "We need to crack down on illegal online gaming and replace it with a safe and responsible entertainment option for adults, which includes safeguards against compulsive and underage gambling, money laundering, fraud, and identity theft."

AB 431 by Assemblymember Gray and SB 278 by Senator Hall would specifically authorize the operation of an iPoker website within California's borders and would require the California Gambling Control Commission in consultation with the California Department of Justice to prepare regulations for the operation of an iPoker website.

"We intend to develop a framework in California that can be a national model," said Senator Hall. "This will not be a rushed process. We look forward to moderating an open, honest, and thorough debate." Federal law essentially prohibits online gambling by U.S. citizens but includes specific provisions that allow individual states to offer intrastate Internet gaming, provided that state laws permitting and regulating that activity could impose reasonable protections against participation by underage persons or by persons located outside the boundaries of the states. Currently, only Nevada, Delaware, and New Jersey allow for regulated intrastate Internet gaming.

"Illegal online gambling happens every day in California on sites operated by unknown persons located in countries throughout the world. Neither state nor federal laws provide any consumer protections or safeguards," said Assemblymember Gray.

"California needs a strong law that puts a stop to illegal online gambling," finished Senator Hall.

#

Assemblymember Adam C. Gray represents the 21st Assembly District which includes all of Merced County and portions of Stanislaus County.

Authorizing Online Poker in California

LEGISLATIVE ANALYST'S OFFICE

Presented to: Assembly Governmental Organization Committee Hon. Isadore Hall III, Chair

Federal Law Allows States to Authorize Intrastate Online Gambling

Under the Federal Unlawful Internet Gambling Enforcement Act (UIGEA) of 2006, it is generally unlawful now to place or receive gambling bets through the Internet.

 \mathbf{N}

However, UIGEA allows states to authorize online, intrastate gambling under certain conditions. For example, the type of bet or wage must be authorized by state law and cannot violate certain federal laws. In addition, rules and regulations must be adopted to prevent minors and nonstate residents from participating in online gambling.

In recent years, there have been various bills introduced in Congress to legalize online gambling across all states, which would likely impact the revenues that states could generate from intrastate, online gambling.

Currently, Nevada, Delaware, and New Jersey have launched intrastate, online gambling.

Overview of Nevada Online Gaming

Types of Games Offered. Nevada launched online poker in April 2013.

Regulatory Authority. The Nevada Gaming Commission and the Nevada State Gaming Control Board share regulatory, licensing, enforcement, and adjudicatory authority over online gaming activities in the state.

State Tax Revenues. The state receives 3.5 percent, 4.5 percent, or 6.75 percent of total gross revenue received by a licensed operator, depending on the amount of gross revenue the operator generates monthly. Nevada anticipates annual revenue totaling around \$3 million.

Player Protections. Operators are required to maintain a reserve backed by a federally insured financial institution and/ or a bona fide insurance carrier, equal to the total amount of funds held across all player accounts. Additionally, operators are required to contract with an independent certified public accountant to review the maintenance of the reserve.

Problem Gaming Requirements. Operators must provide links to a responsible gaming website and a website to allow individuals to "self-exclude" themselves from future play. Additionally, operators must ensure that players have the ability to set limits on losses, deposits, tournament entries, buy-ins, and play time through their gaming account.

Overview of Nevada Online Gaming

(Continued)

Number of Websites and Operators. Nevada currently has three websites operated by three licensed operators: Real Gaming operated by South Point Hotel and Casino, Ultimate Poker operated by a subsidiary of Station Casinos, and World Series of Poker operated by Caesars Entertainment Corporation.

Overview of Delaware Online Gaming

✓ **Types of Games Offered.** Delaware launched online gaming in November 2013. Authorized games include poker, blackjack, roulette, and slots.

Regulatory Authority. The Delaware State Lottery Office has regulatory, licensing, enforcement, and adjudicatory authority over online gaming activities in the state.

Operator Licenses. The State of Delaware does not license private entities to serve as online gaming operators in the same manner as Nevada and New Jersey. Instead, the state controls all gambling and licenses agents to serve on its behalf.

State Tax Revenues. The state receives 43.5 percent of online slots revenue and 29.4 percent of revenue from all other games, excluding payments made to players. In addition, the state receives the first \$3.75 million of proceeds each fiscal year. The Delaware State Department of Finance initially estimated \$7.75 million in first-year revenues. However, the state now anticipates \$3.75 million in revenues.

Player Protections. The State Lottery Office maintains a separate bank account to hold funds that are deposited into authorized gaming accounts.

Problem Gaming Requirements. Individuals may submit a request to exclude themselves for one year, five years, or a lifetime. Violation of the exclusion constitutes a misdemeanor. Every licensed agent is also required to have a link to the self-exclusion page of the State Lottery website.

Number of Websites and Operators. The state operates online gaming websites designed by 888 Holdings through its three racetrack casinos—Delaware Park, Dover Downs, and Harrington Raceway.

LEGISLATIVE ANALYST'S OFFICE

Overview of New Jersey Online Gaming

Types of Games Offered. New Jersey launched online gaming in November 2013. Authorized games include poker, blackjack, roulette, and slots.

 \mathbf{N}

 $\mathbf{\nabla}$

 \mathbf{N}

Regulatory Authority. The New Jersey Office of the Attorney General's Division of Gaming Enforcement and the New Jersey Casino Control Commission share regulatory, licensing, enforcement, and adjudicatory authority over online gaming activities in the state.

Operator Licenses. Statute restricts the issuance of operator licenses to casinos based in Atlantic City and requires that nearly all associated personnel and equipment be housed within the casinos. Operators must currently pay a license issuance fee of at least \$400,000 and a renewal fee of at least \$250,000. The amount paid depends on the actual cost of regulation. Licensed operators must also pay \$250,000 annually for problem gaming programs and services.

State Tax Revenues. The state receives 15 percent of gross revenues from online gaming. Additionally, operators must either reinvest 2.5 percent of gross revenues for community and economic development projects or pay a tax consisting of 5 percent of gross revenues. New Jersey initially anticipated revenues of \$160 million to \$180 million annually. However, the state now anticipates annual revenues of \$35 million to \$50 million.

Player Protections. Operators must maintain a New Jersey bank account—separate from all operating accounts—for funds deposited into gaming accounts. The amount in this account must be greater than or equal to the total amount that can be withdrawn from the operator's gaming accounts. Operators are also required to contract with an independent firm to conduct annual system and security assessments.

LEGISLATIVE ANALYST'S OFFICE

Overview of New Jersey Online Gaming (Continued)

Problem Gaming Requirements. Individuals may exclude themselves for one year, five years, or a lifetime. Websites must include a prominent message directing problem gamblers to appropriate resources and operators must provide links to responsible gaming websites and a self-exclusion application. Additionally, operators must ensure that players have the ability to set limits on deposits, spending, and play time through their gaming account.

Number of Websites and Operators. New Jersey currently has around a dozen distinct websites operated by seven licensed operators.

How Much Revenue Could Actually Be Generated in California?

Our analysis indicates that the actual level of state revenue that could be generated from authorizing online poker in California would depend heavily on a variety of factors. These factors include:

- Possible legal issues regarding tribal-state compacts.
- How legal poker websites would be implemented in California.
- The number of people that would play online poker, as well as the amount wagered, on legal websites.
- The extent to which the legal websites are able to capture monies that are currently being wagered on illegal websites.

Possible Legal Issues Regarding Tribal-State Compacts

 \mathbf{N}

 \mathbf{N}

The existing tribal-state compacts that have been ratified by the Legislature require the tribes to make payments to various state accounts. For example, some ratified compacts require tribes to make annual payments to the General Fund. (The Governor's proposed budget for 2014-15 estimates that the General Fund will receive approximately \$330 million in revenue from these tribes in the current year.)

However, the Ninth Circuit Court of Appeal decided in the *Rincon Band v. Schwarzenegger* case that the state could not require tribes to make payments to the General Fund. While the compacts requiring these payments still stand, these tribes will likely no longer make such payments when they are renegotiated.

Existing compacts also contain provisions limiting the state's ability to authorize certain types of gambling that could compete with the tribal casinos. For example, if the state authorizes certain types of competing gambling enterprises, these compacts may allow the tribes to stop making payments to state accounts, such as those that support nongaming tribes, regulatory bodies, problem gaming resources, and local mitigation.

There could be legal challenges that legal poker websites violate the above provisions in tribal-state compacts if online poker is approved in California. If such challenges were upheld, the state could lose hundreds of millions of dollars in revenue annually. Thus, the Legislature should work closely with the Office of Legislative Counsel and other legal experts to assess these risks if it wishes to consider proposals in this area.

How Legal Poker Web Sites Could Be Implemented in California

|√|

State Share of "Gross Revenues." One of the primary factors in how much revenue the state would generate is what portion of gross revenues it would receive from the legal website operators. One goal could be to maximize the benefit from these activities to the state. On the other hand, if the state were to require too large a share, such operators may not retain sufficient funds to effectively compete with the operators of illegal websites (such as for marketing and incentives to retain players).

State Regulations. The state would incur regulatory costs to prevent unauthorized users from playing on legal poker websites. In addition, it is not clear what specific steps individuals in California would need to take to be able to play on legal poker websites (such as providing proof of residency, location verification, and paying registration fees). If these requirements were extensive, however, they could be a barrier to player participation.

Number of Websites. Although the existence of multiple legal poker websites within California could promote competition, having too many sites could result in each site not having sufficient players to facilitate poker games, as sometimes occurs on illegal websites. This seems to be an issue facing the three states currently operating online gaming.

 \mathbf{N}

Tax Revenue. The website could be designed to make it easier to collect income taxes on net winnings. Currently, players using illegal websites have little incentive to report gambling winnings for tax purposes. The state could require that such websites report such information to the state. However, this could deter some players from using legal websites. The state would also collect taxes from the operators of legal poker websites as well as their employees.

Various Factors Could Impact Player Participation in Legal Online Poker

Cost to Play. If the cost of playing on legal poker websites was greater than the cost of playing on illegal websites, due to taxes and fees paid by the players, there could be a fiscal disincentive to play and wager similar amounts on legal sites.

 \mathbf{N}

Security and Regulation. Unlike illegal poker websites, the legal websites would be able to provide players with a greater sense of security and comfort in that they would know that they are not engaging in an illegal activity.

Incentives to Retain Players. Many of the existing illegal websites offer financial incentives to retain players. For example, some sites offer bonuses to players that they can collect only after playing a predetermined amount of time. This could make it more difficult for new California online websites to capture a share of the market in the near term. The state could allow similar incentives for its games.

Games Offered. Legal poker websites would have to compete with existing illegal websites that have little or no limits on the types of games offered.

Two Potential Sources of State Gaming Revenues From Online Poker

|√|

State Revenues From Redirecting Wagering From Illegal Websites

- Several studies estimate that illegal websites receive roughly \$300 million to \$400 million in gross revenue from Californians participating in online poker.
- While it is not known how many current California players would switch from illegal websites, these potential gambling activities could generate new revenues for the state.

- Revenue generated from (1) existing players betting more than they otherwise would or (2) individuals that currently do not play online poker would be offset, to an unknown extent, by a reduction in existing state revenues.
- This is because individuals would generally spend less consuming other goods and services because more of their income would be spent on online gambling.

CA Authority of Racing Fairs Legislative Report - Last 10 Days 2/20/2015

<u>AB 315</u> (<u>Bigelow</u> R) District agricultural associations.

Current Text: Introduced: 2/12/2015 pdf html

Introduced: 2/12/2015

Status: 2/13/2015-From printer. May be heard in committee March 15.

Location: 2/12/2015-A. PRINT

|--------------------------|--------------------------|-------|------------|--------|-----------|
| 1st House | 2nd House | Conc. | LIII Olleu | velueu | Chaptereu |

Summary: Existing law divides the state into agricultural districts, and provides for the management of each district by a district agricultural association. Existing law sets forth the powers and duties of a district agricultural association, including, among others, the power to contract in accordance with specified requirements. This bill would make nonsubstantive changes to the latter provisions.

Organization Position

CARF Watch

<u>SB 187</u> (<u>Hall</u> D) Horse racing: out-of-country thoroughbred races.

Current Text: Introduced: 2/9/2015 pdf html Introduced: 2/9/2015

Status: 2/19/2015-Referred to Com. on G.O.

Location: 2/19/2015-S. G.O.

|--------------------------|--------------------------|-------|----------|--------|-----------|
| 1st House | 2nd House | Conc. | Enroneu | veloeu | Chaptered |

Summary: The Horse Racing Law authorizes a thoroughbred racing association or fair to distribute the audiovisual signal and accept wagers on the results of out-of-state thoroughbred races conducted in the United States during the calendar period the association or fair is conducting a race meeting, including days on which there is no live racing being conducted by the association or fair, without the consent of the organization that represents horsemen and horsewomen participating in the race meeting and without regard to the amount of purses. Under that law, the total number of thoroughbred races imported by associations or fairs on a statewide basis under these provisions are required to not exceed 50 per day on days when live thoroughbred or fair racing is being conducted in the state, with the exception of prescribed races, including races imported that are part of the race card of the Kentucky Derby, the Kentucky Oaks, the Preakness Stakes, the Belmont Stakes, the Jockey Club Gold Cup, the Travers Stakes, the Arlington Million, the Breeders' Cup, the Dubai Cup, the Arkansas Derby, the Apple Blossom Handicap, or the Haskell Invitational. This bill would delete from the 50 imported race per day limitation, races imported that are part of the race card of the Dubai Cup. The bill would instead exempt from the 50 imported race per day limitation, races approved by the California Horse Racing Board.

Organization Position CARF Watch

SB 221 (Jackson D) State public employees: sick leave: veterans with service-related disabilities.

Current Text: Introduced: 2/12/2015 pdf html

Introduced: 2/12/2015

Status: 2/13/2015-From printer. May be acted upon on or after March 15. **Location:** 2/12/2015-S. PRINT

| Desk Policy Fiscal Floor | Desk Policy Fiscal F | Floor Conf. | Enrollod | Votood | Chaptored |
|--------------------------|----------------------|-------------|----------|--------|-----------|
| 1st House | 2nd House | Conc. | Enroneu | veloeu | Chaptereu |

Summary: Existing law prescribes the general work week policy for state employees, subject to specified exceptions, and the terms and conditions for accrual of vacation and sick leave. Existing law generally provides that a state officer or employee who is employed full time accrues one day of credit for sick leave for each calendar month of service. Existing law requires that if these provisions conflict with an adopted memorandum of understanding, the memorandum of understanding controls, as specified. This bill would grant a state officer or employee who is a military veteran with a service-connected disability rated at 30% or more by the United States Department of Veterans Affairs an additional credit for sick leave with pay of up to 96 hours for the purpose of undergoing medical treatment for his or her service-related disability. The bill would require that the sick leave be credited to a qualifying officer or employee on the first day of employment and remain available for use for the following 12 months of employment. The bill would prohibit this sick leave from being carried over after 12 months and would permit submission of satisfactory proof that the sick leave is being used for treatment of a service-connected disability to be required, as specified.

FIGURE 2: Sand with low percentage of quartz (~3%). A) Before abrasion resistance test and B) after.

The Durability of Sand Constituents in Dirt Racetrack Surface Materials

Julia Bradson, Eliza M. Cronkite, M.S., Christie A. Mahaffey, Ph.D.

Introduction

Amending and replacing racing surface material are necessary parts of track maintenance. Documentation of this process is often limited and material types differ between racetracks based on climate and local conditions. Therefore having improved data regarding the constituents of the surface material can help track superintendents better justify materials needed for track maintenance.

The mechanics of dirt racing surfaces are dependent on the moisture content and the composition of the material. Sand mixtures with smaller pores behave differently than sand mixtures with larger pores, retaining more moisture between grains. As a surface material changes due to wear, the moisture content necessary to maintain shear strength and compaction also changes. The sand becomes smaller and the fine material from the wear process can fill the pores. The change in the mechanical properties of the surface materials is critical to providing the required biomechanical properties for the horse.

The rate at which changes in the sand occur depends on mineral content and the shape of the sand grains. Sand with a high percentage of silica, typically in the form of quartz, is much more resistant to weathering and abrasion due to the level of hardness of quartz. More rounded sand will also tend to be more durable. With the frequent harrowing and heavy traffic on a racetrack, the changes to the sand grains from abrasion can occur quickly depending on the type of sand. The selection of more durable sand, if available, is usually the preferred method of avoiding these issues. However, if more durable sand is not available, frequent amendment of material and management of lost fine material is critical to the maintenance of a consistent racing surface.

Abrasion Resistance Testing

The selection of more durable and consistent sand can dramatically reduce changes to a track surface. Racing Surfaces Testing Laboratory (RSTL) has adopted and revised a sand durability test using a Micro-Deval apparatus, commonly used by the Department of Transportation. This abrasion resistance test allows for quantification of the durability of dirt track surface materials.

Abrasion resistance testing measures the abrasion resistance and durability of the sand used in a track surface. The quality of the sand is determined by the abrasion loss when a material is combined with water and an abrasive force. Track material undergoes mechanical abrasion using calibrated steel balls in the Micro-Deval apparatus. This allows for calculation of the percentage of material lost by comparing the weight of the sample before and after abrasion. Like the wear processes of the sand on the racetrack, the metal balls wear in the test apparatus and lose material in the same way that the harrow teeth and horse shoes wear. This wear is addressed by weighing the balls before and after each test.

FIGURE 3: The amount of change in a track material as a result of abrasion resistance testing. A) Sediment with a high percentage of quartz (approximately 80%), and B) low percentage of quartz (approximately 3%).

This Racing Surfaces Testing Laboratory Technical Bulletin for Track Surface Education is one in a series of papers directed toward a general audience with a common interest in developing consistent and reliable track surfaces. This and subsequent bulletins can be found at the Racing Surfaces Testing Laboratory website: racingsurfaces.org/bulletins

The Racing Surfaces Testing Laboratory is a product of efforts by The Racing Surfaces Committee that was formed at the inaugural Welfare and Safety of the Racehorse Summit in 2006. These test results are useful when evaluating the hardness of a material like the sand on a track which is worn by abrasive processes such as harrowing and horse traffic. By measuring changes in the size and the type of material created from the wear, it is possible to determine if the material used on a track will require frequent amendments. Abrasion resistance testing also reveals some interesting information on the effects of abrasion when looking at mineral shape and grain size. In the scientific literature, it has been demonstrated for samples of the same mineralogy, flat or angular particles will have more material loss due to abrasion. Wear of the particles is due to chipping of corners.

Mineralogy

Test results indicate the mineralogy of a sample as a key component to the abrasion resistance of a track surface material. The mineralogy is determined using x-ray diffraction (XRD). Quartz is one of the hardest minerals in sand, and therefore resists abrasion. Sand with a high percentage of quartz is less likely to lose material due to abrasion than those with low percentages of quartz. The particle size distribution before and after abrasion testing for two track materials is shown in Figures 1 and 2. Figure 3 compares percentages of quartz and the amount of changes to the sediment sample as the result of testing. Sand with a higher percentage of quartz is clearly more durable and results in less generation of fine materials.

Conclusion

Dirt tracks with higher percentages of quartz and sub-rounded sand grains are more resistant to abrasion and therefore resist degradation of the track surface. Conversely, track surfaces with lower percentages of quartz or angular grains will require replacement of the surface material more frequently and may generate fine material that leads to compaction of the surface. XRD and abrasion resistance testing, in combination with sieve and hydrometer testing, provides highly valuable data as to how readily a track surface material degrades. Dirt tracks in North America have a wide range of quartz content (40-90%). Quantifying the durability of the sand used for the tracks can help determine the proper maintenance and required monitoring of the surface. The result can help to improve the consistency of the surface and provide trainers, riders and jockeys a fair and consistent surface for racing and training.

Acknowledgements

Support from the Los Angeles Turf Club Inc. for the development of the sand durability protocol and the purchase of durability test equipment is greatly appreciated.

2014

RECRUITMENT • RETENTION • RECOGNITION

A program to recruit, retain and recognize horsemen on the Northern California racing circuit.

FEBRUARY 2014

CONTENTS

RECRUITMENT PROGRAM

- **01 Introduction** Letter from the Executive Director.
- **02 2014 Strategy**

Outline of 2014 recruitment program tactics.

03 Budget

2014 budget expense by category.

- 04 Recruitment Program Results
- **05** Retention Program Results
- **06** Recognition VIP Program
- **07** Advertising Samples

PAYMASTER PAYMENT REPORTS

09 Purse Transaction Reports for Relocation Fees Paid

Paymaster report that shows relocation costs by transaction. Each transaction includes the name of the account paid, amount paid and the horse associated with each transaction.

14 Trainer Starter Incentive

Report that shows payments made to qualifying trainers as well as entry and start statistics for 2013 and 2014.

APPENDIX

17 Past Program Results Results overview for years 2009-2014.

PROGRAM EXECUTION

Christopher Korby - Executive Director California Authority of Racing Fairs

Larry Swartzlander - COO California Authority of Racing Fairs

Tom Doutrich - Racing Secretary California Authority of Racing Fairs

Victoria Layne - Paymaster of Purses California Authority of Racing Fairs

Heather Haviland - Director of Marketing California Authority of Racing Fairs

INTRODUCTION

▶ In 2001, CARF developed a program to actively recruit out-ofstate owners, trainers and horses to compete on the Northern California Summer Racing Circuit. The goal of the program was simple: increase the field size for summer racing in Northern California.

In order to accomplish this goal, CARF set three objectives for the initial program: 1) inform and educate horsemen in other jurisdictions about the benefits of racing in California, 2) retain horsemen who have elected to compete in Northern California in previous years, and 3) offer financial incentives to assist horsemen with the cost of shipping horses to Northern California.

The CARF recruitment program proved successful in bringing horsemen to California and increasing field size. From 2001 to 2014, the CARF recruitment program paid more than \$744,000 in shipping incentives to horses that made upwards of 4,185 starts.

The landscape of racing in California has changed dramatically since the recruitment program's inception in 2001. We're finding that retention and recognition of horsemen have become just as important as recruitment. Consequently, we're adjusting the incentives in our program so that the elements of *recruitment*, *retention* and *recognition* will each contribute to the program's primary objective: increase field size.

We're pleased to report that the changes to our program in 2013 and 2014 were met with positive response from horsemen. Once again this year, the program proved itself to be a successful component of our summer racing in Northern California.

In closing, we want to express our sincere thanks to all the owners and trainers who participated in our meets this last year and extend a cordial invitation to join us again in 2015.

CHRISTOPHER KORBY EXECUTIVE DIRECTOR CALIFORNIA AUTHORITY OF RACING FAIRS

OUR STRATEGY

The 2014 CARF Recruitment Program was expanded to include recruitment, starter incentives and a VIP Horsemen's program.

RECRUITMENT OUT-OF-STATE SHIPPING INCENTIVES

▶ Each spring since 2001, CARF has scheduled a series of out-of-state recruitment visits to personally meet one-on-one with horsemen in other jurisdictions and invite them to complete in Northern California for the summer.

To give extra meaning to our invitation and to financially assist horsemen who choose to ship to our circuit, CARF pays a \$300 Relocation Fee to the designated payee of any horse making its first start after shipping over 400 miles. A qualifying runner making its second start on the Fair Circuit will receive \$150. CARF paid \$40,800 in relocation fees to 121 Thoroughbred horses which made 253 starts on the 2014 Fair Circuit.

CARF paid \$114,000 in trainer incentives to trainers who made 1,339 starts on the CARF circuit.

RETENTION STARTER INCENTIVES & FIELD SIZE

▶ In an effort to retain Northern California trainers, maximize field size and offset the cost of shipping, CARF offered a \$1,000 incentive for trainers making 10 or more starts. Trainers making 5-9 starts received a \$500 bonus. This program realized a 15% increase in the number of entries made by qualifying trainers and a 22% increase in the number of starts.

<u>RECOGNITION</u> HORSEMEN VIP PROGRAM

▶ The CARF VIP Horsemen's Program provides horsemen with a single set of parking and admission credentials for the CARF Fair Circuit. The VIP Horsemen database is also used to distribute a packet of welcome information prior to the Fairs.

The CARF VIP Horsemen credentials simplify many of the logistical challenges horsemen face moving Fair to Fair.

PROGRAM BUDGET

► The CARF Recruitment Program is funded by allocations from member Fairs and from the California Marketing Committee (CMC). In 2013 and 2014, staff decided to forego the traditional out-of-state recruitment trips, receptions and dinners in favor of a direct mail piece to our database of out-of-state horsemen. Funds that normally would have been allocated for recruitment trips were instead redirected to develop new programs to increase field size.

| EXPENSE TYPE | 2014 COST |
|---|-----------|
| RECRUITMENT (400 or more miles) | |
| Recruitment - Travel & Receptions | 1,562 |
| Relocation Fees Paid (All Breeds) | 58,650 |
| Out-of-State Trainer Incentives | 3,000 |
| Advertising - Out-of-State Recruitment | 10,465 |
| RETENTION & FIELD SIZE | |
| Starter Incentive (Pleasanton) | 36,500 |
| Oak Tree Handcp. Incentive (Pleasanton) | 7,000 |
| Starter Incentive (Cal Expo) | 22,000 |
| Starter Incentive (Ferndale) | 15,500 |
| Starter Incentive (Stockton) | 12,000 |
| Starter Incentive (Fresno) | 21,000 |
| RECOGNITION - VIP PROGRAM | |
| Hard Costs | 3,717 |
| Giveaways | 3,441 |
| TOTAL 2013 RECRUITMENT PROGRAM | \$194,835 |

RECRUITMENT RESULTS

▶ The CARF Out-of-State Recruitment Program, administered by the California Authority of Racing Fairs staff, makes available \$300 to every horse that travels 400 miles or more to start on the Northern California Fair Circuit for its first start and \$150 for its second start (\$450 total). A runner making its first start at Ferndale receives \$150 for each of two starts, with another \$150 available if the horse starts again at Stockton and/or Fresno.

During recruiting efforts prior to our first meet, horsemen are notified of the program and invited to visit or call the paymaster when running an out-of-state horse. The paymaster maintains a ledger of eligible horses and verifies by past performances or Coggins test paperwork that the horse has traveled 400 miles or more to run on the Fairs. Payment is made by a transfer into the account of the owner or trainer of the horse.

121 OUT-OF-STATE
THOROUGHBREDSOUT-OF-STATE
THOROUGHBREDSRECEIVED \$40,800282in relocation fee payments at anon the

average cost of \$161 per start.

OUT-OF-STATE THOROUGHBREDS MADE **282 STARTS**

on the 2014 Northern California Fair Circuit.

OUT-OF-STATE THOROUGHBREDS MADE UP 10 PERCENT

of the total 2014 Northern California Fair horse population by starts.

OUT-OF-STATE STARTS BY FAIR: Pleasanton - 45, Sacramento - 21, Santa Rosa - 57 Ferndale - 76, Stockton - 26, Fresno - 28

Impact of Recruited Horses on Field Size

Recruitment by State

RETENTION RESULTS

▶ In an effort to retain Northern California trainers, maximize field size and offset the cost of shipping, CARF offered a \$1,000 incentive for trainers making 10 or more starts at CARF member tracks. Trainers making 5-9 starts received a \$500 bonus. This program realized a 15% increase in the number of entries made by qualifying trainers and a 22% increase in the number of starts.

Entries by these trainers were up 26% (690 in 2013 compared to 866 in 2014) and starts were up 24% (408 in 2013 compared to 505 in 2014).

CAL EXPO - 24 TRAINERS QUALIFIED FOR THE STARTER INCENTIVE PROGRAM

With one day less racing, entries by these trainers were up 14% (276 in 2013 compared to 316 in 2014) and starts were up 14% (157 in 2013 compared to 179 in 2014).

FERNDALE - 21 TRAINERS QUALIFIED FOR THE STARTER INCENTIVE PROGRAM

Entries by these trainers were up 10% (315 in 2013 compared to 345 in 2014) and starts were up 15% (207 in 2013 compared to 239 in 2014).

STOCKTON - 23 TRAINERS QUALIFIED FOR THE STARTER INCENTIVE PROGRAM

Entries by these trainers were up 11% (211 in 2013 compared to 234 in 2014) and starts were up 34% (108 in 2013 compared to 145 in 2014).

FRESNO - 31 TRAINERS QUALIFIED FOR THE STARTER INCENTIVE PROGRAM

Entries by these trainers were up 5% (415 in 2013 compared to 437 in 2014) and starts were up 26% (215 in 2013 compared to 271 in 2014).

> 5% 26%

RECOGNITION - VIP

The VIP Horsemen's Program provides horsemen with a single set of parking and admission credentials for the CARF Fair Circuit - allowing horsemen to move from fair to fair without having to secure a new parking pass every two weeks.

> VIP credentials are distributed by the Racing Secretary in the Racing Office.

CARF FAIR CIRCUIT

Thank you for racing at our Fairs

Results of CARF Program to Increase Field Size

The Fair Out-of-State Recruitment Program, administered by the California Authority of Racing Fairs, pays \$300 to every horse that travels 600 or more miles to start on the Northern California Fair Circuit for its first start and an additional \$150 for its second start (\$450 total). A runner making its first start at Ferndale receives \$150 for each of two starts, with another \$150 available if the horse starts again at Stockton and/or Fresno.

- 2012 Total TB Recruitment Costs \$66,411.71 2012 Recruitment at Tracks - \$13,711.71 2012 TB Relocation Fees Paid - \$50,700.00 2012 Trainer Incentives - \$2,000.00 Number of Horses Paid - 149 Number of TB Starts - 338 Percentage of Total Horse Population - 11%
