**Chris:**

Pursuant to my earlier discussions with CARF's Board of Directors and Live Racing Committee, please accept the following as my initial request for reconsidering the allocation of costs for services provided by the authority to its member live racing fairs.

First, beginning with the 2008 racing season, the Humboldt County Fair Association will not be in a position to participate in the following services: Racetrack Chaplaincy and NTRA.

As time and circumstances permit, I'm requesting that a variety of expenses currently shared by member live racing fairs on a per race day basis, instead be considered on a per race basis. Those expenses include the following:

- **MOC Accident & Health Insurance**
- **Recruitment**
- **Paymaster salary & benefits**
- **Racing Intern**
- **Announcer**
- **Morning Line Maker**
- **Network Manager Salary, & benefits**
- **Simulcast Coordinator Salary & benefits**
- **Pegasus Communications**

I am hopeful that reasonable discussion may occur regarding this request and that alternative solutions can be discussed. Perhaps one way to look at the structure of costs would be to establish some sort of baseline set-up fee applicable to all, then spreading the remaining cost on a per race (or total race) basis.

That's it in a nutshell. I would like to have this item place on the next agenda for discussion.

  
Stuart Titus, General Manager

The New BetJet™ Series of Wagering Devices

*Featuring the*

ClearBet™ User Interface

Since the introduction of the flip concept, SGR has followed-up with consistently improving terminals designed to encourage self-service wagering. Now, SGR introduces its latest – the BetJet™ Series.

The BetJet Series provides a strong successor to not only the Probe™, but to SGR's entire line of self-service terminals, and establishes the logical next steps in the evolution of race wagering customer service.

BetJet is a fully modular system that facilitates the progression along a logical path from teller-operated to full account wagering self-service while not forcing the racing operator – or indeed the racing fan – to jump too quickly ahead. It is based on a carefully conceived flow of education and acceptance designed to enhance – not challenge – customer service, thereby maximizing customer satisfaction, acceptance and usage.

### **The New BetJet Series featuring the New ClearBet User Interface**

The BetJet™ Series consists of distinct modules that can be used in multiple configurations – all with a 15" color display:

1. BetJet Flip – Combination teller / self-service terminal
2. BetJet SL – Full self-service terminal
3. BetJet AB – Full account-wagering based self-service

### **BetJet™ Flip**

This combination teller / self-service device is mounted to a counter and can be quickly and easily configured for either teller operation or self-service. The Flip features full self-service capability including handling of tickets and cash and an optional keyboard for tellers.

*Banking interface PIN pad and  
Biometric Readers are optional*

## BetJet™ SL

This full self-service terminal targets today's self-service betting environment where paper slips are printed and scanned. The SL can be mounted to a counter, pedestal, or wall. The terminal accepts cash, vouchers and account wagering input.

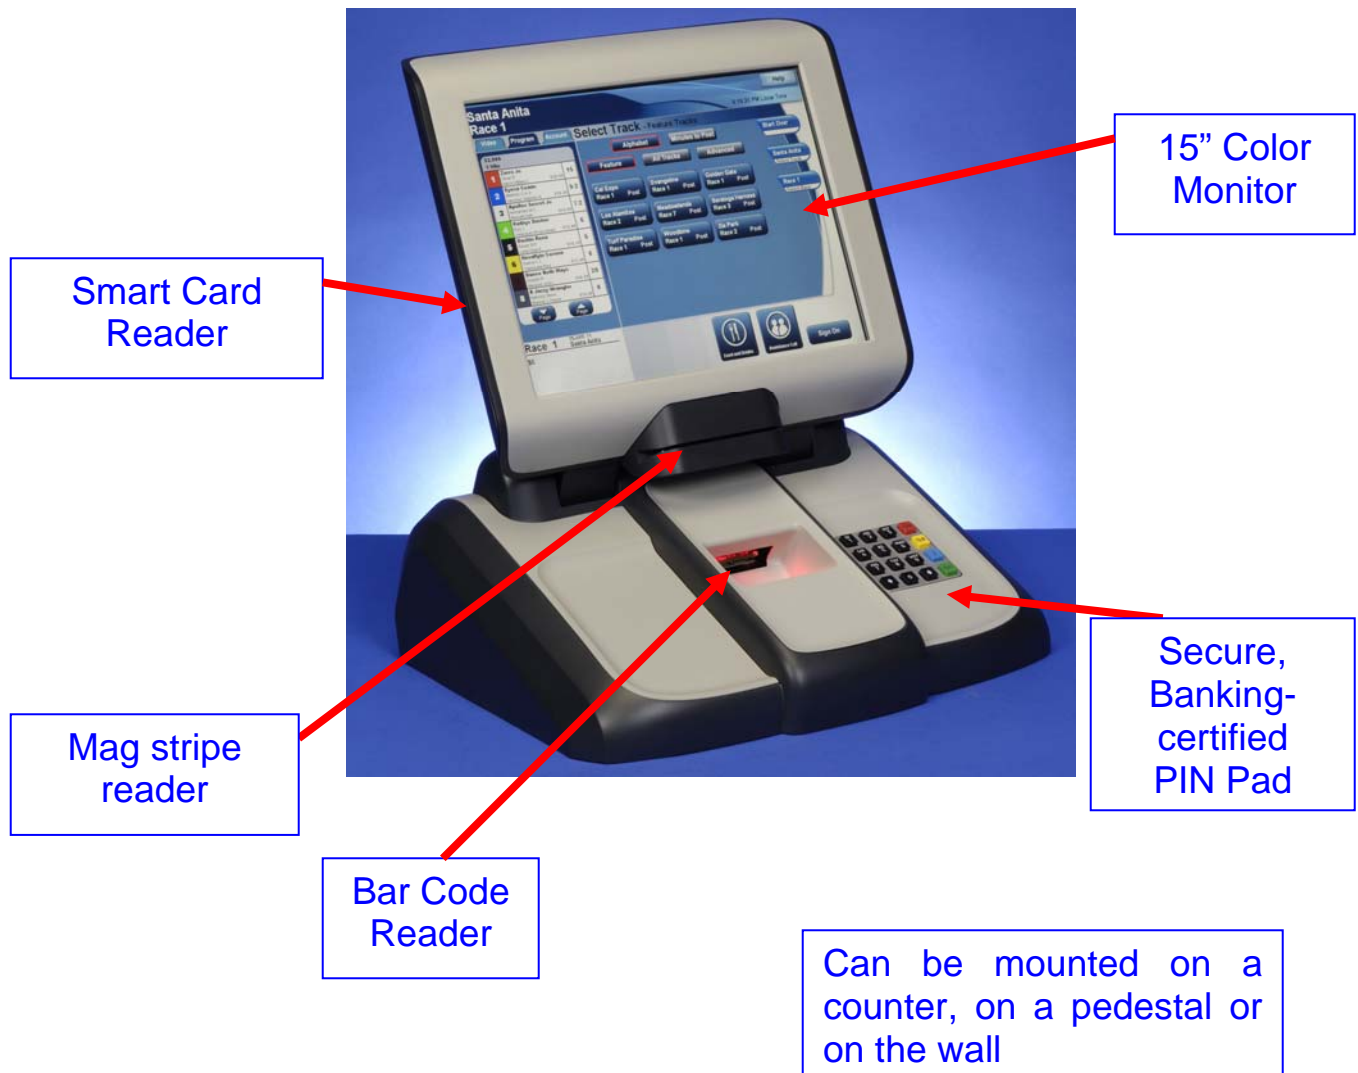

## BetJet™ AB

The AB targets the future self-service wagering environment where only fully account-based transactions are the norm. It may be mounted to a counter, a pedestal, or a wall.

As with the other BetJet configurations, the AB model provides full account wagering capability. It does not, however, accept vouchers, print tickets or accept cash. This is envisioned for the new wagering environment where accounts are the method of wagering, be they temporary, one-day accounts, or permanent.

Of course, the AB provides the same 15" color touch screen. It also provides pin pad and readers for bar codes, magnetic cards and smart cards and optional biometrics.

## **The New ClearBet™ User Interface**

Scientific Games Racing pioneered self-service race wagering and the superiority of our self-service is evidenced by the results that our customers have enjoyed in reducing their manpower cost through the use of SGR self-service products.

SGR self-service terminals process a greater percentage of handle than those of the competition, thereby providing savings in the cost of labor as well as more satisfied wagering customers.

SGR terminals have always been designed for intuitive user interface, guaranteeing accuracy, and speeding the wagering process. The new ClearBet™ user interface provides all of the ease of use exemplified in the existing SGR interface, with an updated look and feel and with additional features the racing fan will love.

In developing ClearBet™, SGR relied heavily on its own experience with self-service but also acquired some outside expertise. Specifically, NCR's Human Factors Engineering consultants worked with SGR, our customers, and racing fans over the course of several months to develop the most efficient and user friendly interface possible.

The end result is a user interface that not only looks appealing but also, most importantly, brings the bettor through the process quickly, intuitively and efficiently, heightening the overall wagering experience without sacrificing valuable time.

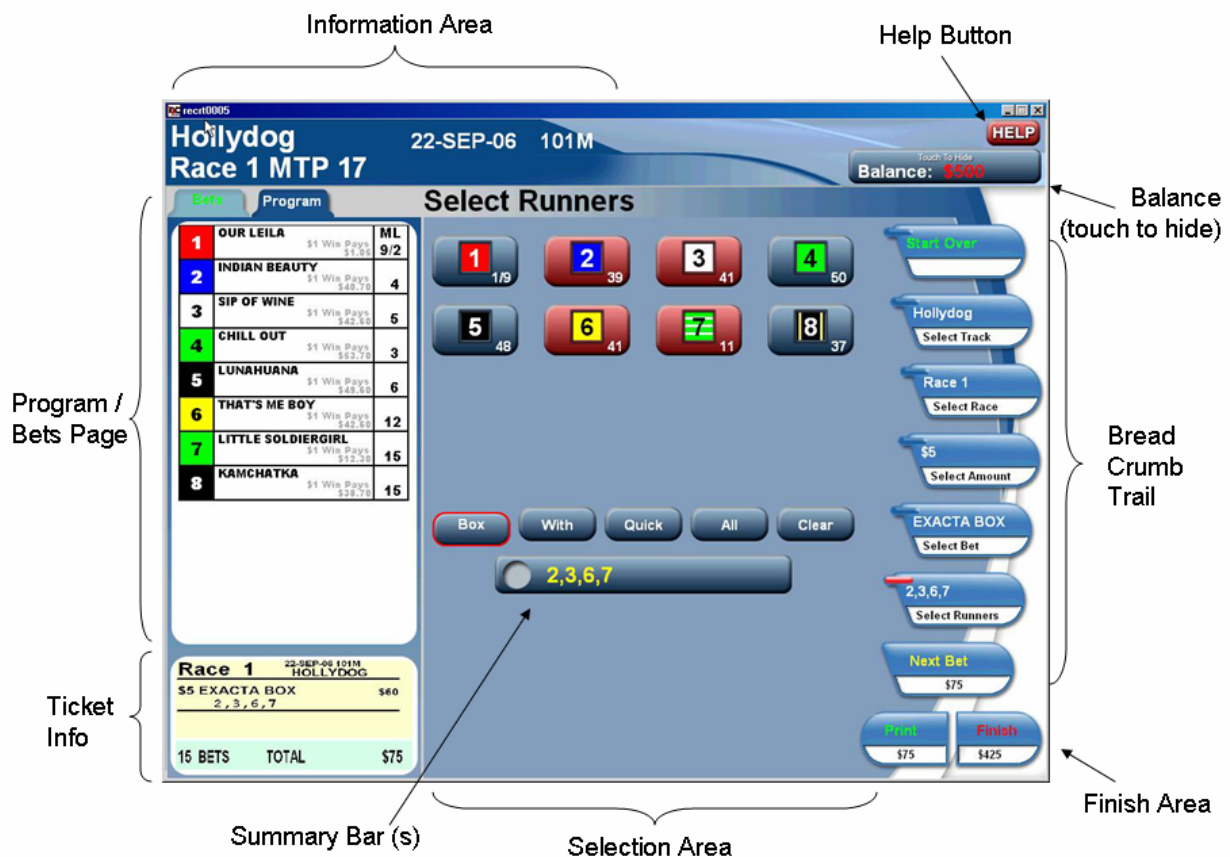

The most critical feature of any user interface is that it allows patrons to enter bets accurately, quickly, and easily.

The "rigid forward/dynamic backward" design flow of ClearBet™ takes a bettor through the process in a logical manner (rigid forward), tells them exactly where they are in the progression

at all times, and allows them to go immediately to any previous step if they wish to change any component of the bet prior to confirmation (dynamic backward).

The deliberately simple, uncluttered design of ClearBet™ provides the industry's most elegant solution for bet entry but despite its clean appearance provides an array of features and functionality such as video, optional expert and quick picks, account wagering information and account management functionality and optional handicapping information.

We are able to offer enhanced functionality, including an Exacta, Quinella and Double matrices (Samples of each are shown below) as well as race information and video.

— 2007 —

RACING FAIR PROGRAM TO RECRUIT OUT-OF-STATE  
HORSE OWNERS AND TRAINERS TO COMPETE  
IN CALIFORNIA

## 2007 OUT-OF-STATE RECRUITMENT PROGRAM

### SUMMARY

#### GOALS AND OBJECTIVES

Since 2001, the California Authority of Racing Fairs (CARF) has conducted a program to actively recruit out-of-state owners, trainers and horses to compete on the Northern California Summer Racing Circuit. The goal of the program is simple: increase the field size for summer racing in Northern California. In order to accomplish this goal, CARF has set three objectives for the program: 1) inform and educate horsemen in other jurisdictions to the benefits of racing in California; 2) retain horsemen who have elected to compete in Northern California in previous years; and 3) offer financial incentives to assist horsemen with the cost of shipping horses to Northern California.

#### RECRUITMENT VISITS OUT-OF-STATE

Each spring CARF schedules a series of out-of-state recruitment visits in order to 1) personally meet one-on-one with horsemen in other jurisdictions; 2) explain the benefits of our program; and 3) invite them to compete in Northern California for the summer. In 2007, these visits included two trips to Arizona, a total of four days, with a reception at Turf Paradise and a three-day stay at Portland Meadows in Oregon, where we also sponsored a reception. These visits allow CARF management to respond personally and directly to questions or concerns about such matters as workmen's compensation, backstretch labor inspections and purse structures. In addition to the receptions and the personal visits with horsemen, CARF distributes an extensive packet of information to educate and inform horsemen about current issues of interest in California. By word of mouth, information about the program has also reached horsemen in Iowa, Idaho, New Mexico, Utah and Washington.

#### RELOCATION FEES

In order to financially assist horsemen who choose to ship horses to our circuit, in 2007 CARF paid a \$300 Relocation Fee to the owner of any horse shipping into Northern California from over 600 miles away. A runner making its first start at Ferndale will receive \$150 at Ferndale and another \$150 if they also start at Fresno. Our Paymaster deposits the fee into the owner's account the first time that an eligible horse starts in a race on our circuit. The Relocation Fee gives some extra meaning to our invitation to come to California. In some cases, the incentive may create the tipping point as an owner or trainer decides about shipping to our circuit. The Relocation Fee also creates a Paymaster record that allows us to accurately track the results of our program from year to year.

# 2007 THOROUGHBRED RECRUITMENT

## Results of CARF Program to Increase Field Size

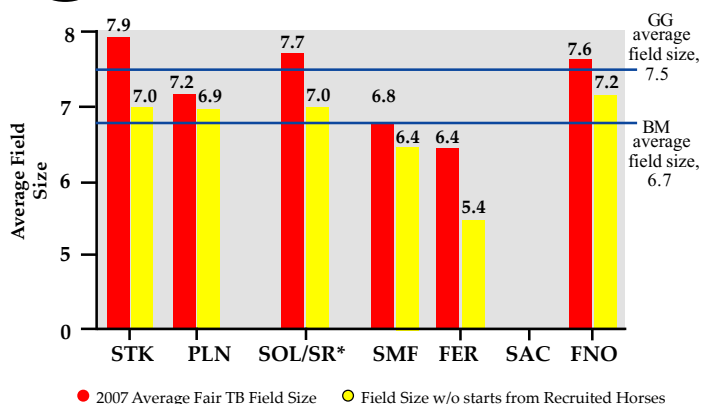

The Fair Out-of-State Recruitment Program, administered by the California Authority of Racing Fairs, pays \$300 to every horse that travels 600 or more miles to start on the Northern California Fair Circuit. A runner making its first start at Ferndale receives \$150, with another \$150 available if the horse starts again at Fresno.

### Where did out-of-state horses come from in 2007? How has the program expanded since 2004?

In 2004, CARF recruitment efforts were 75% reliant on one region (Arizona) for its horse supply.

In 2007, the number of starts by out-of-state horses has diversified significantly due to expanded recruitment efforts.

2

### Where did out-of-state horses come from in 2005? Did the trend continue in 2006?

In 2005, CARF recruitment efforts expanded to Oregon. The resulting increase of Oregon horsemen helped the Fairs become less dependent on one region for its horse supply. (Arizona).

In 2006, the number of starts by out-of-state horses remained level, while the states they were recruited from continued to diversify.

### 2004 Average Fair Field Size w/o Recruited Horses

1. Field size is a problem in California. Without horses recruited from out-of-state, the **average Thoroughbred field size on the Fair circuit would be smaller**. The trend closely resembles the average field size of the **Bay Meadows spring meet (6.98)**, which runs just before the Fair.

#### Examples:

Recruitment efforts brought 92 out-of-state starters to the Solano County Fair. Without those starters, **the average Thoroughbred field size at the Vallejo would have dropped from 8.0 to 7.0**. This trend continued at the California State Fair where the average Thoroughbred field size was 7.6. **Without out-of-state starters, the average field size would have been 6.5.**

BILL NUMBER: AB 2258      INTRODUCED  
BILL TEXT

INTRODUCED BY      Assembly Member Evans

FEBRUARY 21, 2008

An act to amend Section 19616.51 of the Business and Professions Code, relating to horse racing.

LEGISLATIVE COUNSEL'S DIGEST

AB 2258, as introduced, Evans. Horse racing: license fees: shortfalls: pro rata assessment.

Existing law, the Horse Racing Law, provides that if the total amount paid to the state by racing associations and fairs is less than \$40,000,000 in any calendar year, all associations and fairs that conducted live racing during the year of the shortfall are required to remit certain amounts, on a pro rata basis, in order to attain that \$40,000,000 total.

This bill would make clarifying and technical changes to this provision.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 19616.51 of the Business and Professions Code is amended to read:

19616.51. Notwithstanding any other provision of law, if the total amount paid to the state by racing associations and fairs pursuant to this chapter is less than forty million dollars (\$40,000,000) in any calendar year, beginning January 1, 2001, and thereafter, all associations and fairs that conducted live racing during the year of the shortfall shall remit to the state, on a pro rata basis according to the total amount handled in-state by each association or fair, the amount necessary to bring the total amount paid to the state to forty million dollars (\$40,000,000). The amounts due under this section, if any, shall be paid from the amount available for commissions, purses, and breeder awards, and shall be paid to the board prior to March 1 of the year following the year of the shortfall.

**Summary:** Would require the department to establish a program to centralize the sale of state surplus personal property using the best available technology, including, but not limited to, the Internet. This bill would also require the department to impose an additional charge on each item of state surplus personal property that is sold to recover its costs in establishing the program. The bill also would require the department to transmit the proceeds of the these sales, less the additional charge, to the account or fund from which moneys were derived to make the initial personal property purchase. This bill contains other existing laws.

**Summary:** Would permit a general lien on racehorses in the possession of a breeder, trainer, owner, breeding farm, fair training facility, or racetrack for their compensation in caring for, boarding, feeding, and medical treatment of racehorses. The bill would permit that breeder, trainer, owner, breeding farm, fair training facility, or racetrack, if the obligations of the owner of the racehorse are not satisfied, to sell a racehorse that has a value of \$4,000 or less without obtaining the consent of the owner, court order, or judgment, if the amount of the lien is at least 50% of the value of the racehorse and notice is sent to the owner prior to the sale of the racehorse, as specified. The bill would require that the notice of sale be signed under penalty of perjury. By creating a new crime, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**Summary:** Would require an Indian Gaming Local Community Benefit Committee to select only grant applications that mitigate impacts from casinos on local jurisdictions, and would provide that, if a local jurisdiction uses a grant for any unrelated purpose, the grant shall terminate immediately and any moneys not yet spent shall revert to the Indian Gaming Special Distribution Fund. It would require a local jurisdiction that receives a grant from an Individual Tribal Casino Account to deposit all funds received in an interest-bearing account and use the interest from those funds only to mitigate an impact from a casino. The bill would require that, as a condition of receiving further funds, a local jurisdiction, upon request, demonstrate to the county that all expenditures made from the account have been in compliance with these provisions . This bill contains other related provisions and other existing laws.

**Summary:** Existing law creates in the State Treasury the Indian Gaming Revenue Sharing Trust Fund and the Indian Gaming Special Distribution Fund for the receipt and

deposit of moneys received by the state from certain Indian tribes pursuant to the terms of gaming compacts entered into with the state, and authorizes moneys in those funds to be used for certain purposes. Under existing law, funds may be transferred from the Indian Gaming Special Distribution Fund to the Indian Gaming Revenue Sharing Trust Fund under certain circumstances. Existing law requires the California Gambling Control Commission, upon a transfer of moneys from the Indian Gaming Special Distribution Fund to the Indian Gaming Revenue Sharing Trust Fund and appropriation from the trust fund, to distribute the moneys without delay to eligible recipient Indian tribes for each quarter that a tribe was eligible to receive a distribution during the immediately preceding fiscal year. **Summary:** Would enact statutory provisions relating to matters addressed in the compacts ratified as described above the bill would provide that the aggregate limit of gaming device licenses available for issuance those compacts shall be 122,000. The bill would require that, upon application by a tribe with a tribal-state gaming compact ratified as described above, the California Gambling Control Commission allocate gaming device licenses to the tribe in accordance with the tribe's gaming compact, but would prohibit the number of licenses allocated to a tribe from exceeding the maximum number of gaming device licenses allowed under the gaming compact.

**Summary:** Existing law creates in the State Treasury the Indian Gaming Special Distribution Fund for the receipt and deposit of moneys received by the state from Indian tribes pursuant to the terms of gaming compacts entered into with the state. Existing law authorizes moneys in that fund to be used for certain purposes, including grants for the support of state and local government agencies impacted by tribal gaming. This bill would make a technical, nonsubstantive change to these provisions.

**Summary:** The Horse Racing Law provides for the regulation of the horse racing industry, including the issuance of licenses, by the California Horse Racing Board. Existing law requires the board, if any license is suspended or revoked, to state publicly its reasons for the suspension or revocation and cause an entry of those reasons to be made on its minute book. This bill would make a technical, nonsubstantive change to those provisions.

**Summary:** Would authorize the office to establish a program through grant or contract to increase the number of qualified problem and pathological gambling treatment therapists and to establish a stepped-care plan of treatment to provide comprehensive care to problem and pathological gamblers and their families. The bill would require the office to award funds to design therapist training and statewide treatment programs for problem and pathological gambling, together with a statewide training and treatment oversight system, as specified. The bill would require the office, beginning July 1, 2009, and annually each July 1 thereafter, subject to appropriation by the Legislature, to award grants in connection with the therapist training and treatment programs, and the oversight system. The bill would require the Bureau of State Audits, beginning July 1, 2012, and every 3 years thereafter, to report to the Governor and the Legislature on the effectiveness and use of funding of the therapist training and treatment programs.

## MAGNA ENTERTAINMENT

With one analyst tagging the proceeding "Groundhog Day," Magna Entertainment announced Feb. 29 more losses during a lengthy conference call that discussed year-end financials for 2007.

MEC reported it lost \$113.8 million in 2007, with \$43 million of that coming in the fourth quarter alone, and said it was struggling in the United States' current economy to complete its debt-elimination plan announced last year.

"No one can be happy with our performance in the fourth quarter 2007 or the year as a whole," said Frank Stronach, founder, chairman and interim chief executive officer of MEC, in his opening remarks.

### Photo:

During a 15-minute question-and-answer period that featured callers being cut off from frequent comments, an analyst expressed in a self-described "rant" his disappointment with the performance of the company.

"I really think you guys ought to go back and listen to about the last seven to eight conference calls, because it's like Groundhog Day," said Tim Rice of Rice-Voelker LLC. "Every quarter, results are disappointing; every quarter, we are going to sell assets and reduce debt. And it never happens."

Another caller requested an update on the search for a new CEO. Stronach has been serving as interim CEO since Michael Neuman's departure from the position last March after a four-month stint. The company has had five CEOs since it was launched in 2000, with Stronach filling the position on an interim basis three separate times.

Stronach responded to the caller by saying new chief operating officer Ron Charles and former CEO Tom Hodgson, who has been retained by the company as a consultant, were taking on broader responsibilities. And, as in previous conference calls, Stronach asked for suggestions for any prospective CEOs to be sent to MEC.

"Can I make a suggestion?" asked the caller. "You should go to Harvard MBA school or the University of Toronto for an MBA with experience. No disrespect to Ron, but just because you like horses -- I like horses, too -- doesn't mean that I or my son could run the company, no better than the company has been run in the last five or six years."

"It's a good point you make," Stronach replied. "The board (of directors) has a search committee."

and you people have an investment in MEC. And thereby, we will be happy to, if you know person that has some of the assets that they could make a contribution, we would be happy to hear about it. Send us the resumes."

MEC has now reported net losses of \$402.1 million in the last four years combined. A plan to raise up to \$700 million in capital by the end of 2008 has run into tough times due to weak markets in real estate and credit, Hodgson said.

"There are fewer interested parties for some properties than we expected, and some that found it more difficult to arrange financing than they expected," Hodgson said. "But my message to you is that we remain as committed to the successful implementation of the debt-elimination plan as we ever were. While the markets are not all on our side, we will continue to work hard over the next 10 months to achieve that goal."

MEC has classified Remington Park, Thistledown, Great Lakes Downs, and Portland Meadows discontinued operations as of Dec. 31, 2007. All four tracks are for sale, as are former private racetrack properties in Dixon, Calif., and Ocala, Fla., among others.

Charles described his first two months as the company's chief operating officer as "challenging." Charles, who also currently serves as the president of Santa Anita Park, called the issues with that track's synthetic surface "well documented," but also called Gulfstream Park's current situation disappointing.

"We continue to struggle at Gulfstream because of problems we are having with construction and parking," Charles said of ongoing redevelopment of the South Florida complex. "On-track attendance and handle is down. And we continue to be disappointed with the fact that we are unable to allow people to get to the racetrack and conveniently park."

Stronach also noted shareholder concern with the company's struggling stock price, and the company is considering a reverse stock split to help out the situation. MEC was notified February 29 it faced delisting from NASDAQ trading by mid-August unless it brought its stock price above \$10 consecutive days.

"I am very mindful of the poor performance of our stock in the marketplace, and I am committed to addressing the issues underlying that unsatisfactory performance," Stronach said. "I have been personally been working very hard on our key strategic initiatives that I hope will come to fruition in the future."

MEC's stock price has closed under \$1 for 43 straight days, and was trading at about 80 cents during mid-day trading Feb. 29.

Magna Entertainment Corp. confirmed March 3 the resignation of Joseph De Francis from the company's board of directors.

In a news release, MEC said De Francis previously resigned his position as executive vice president pursuant to the company exercising an option in September 2007 to purchase the remaining interest in The Maryland Jockey Club.

"I want to thank Joe for all of his hard work on behalf of MEC over the years and we

wish him well in his future endeavors," said Frank Stronach, MEC's chairman and interim chief executive officer, in a statement.

The move was expected after De Francis in a [published report](#) said he would offer his resignation following comments Stronach made in a Feb. 29 conference call. In the call, which discussed MEC year-end and fourth-quarter financials for 2007, Stronach said De Francis would not retain his director's position, citing a conflict of interest with the potential passage of legislation on slots in Maryland this November.

## DRAFT OF LETTER TO SENATOR VINCENT'S OFFICE

Bay Meadows, Golden Gate Fields and ~~seven~~ Racing Fairs have had a 60+ year working relationship to promote the sport of horse racing in Northern California. Over time, there have been significant positive developments including the opening of 14 satellite wagering facilities and the advent of Advance Deposit Wagering. The recently passed AB241 will provide even more opportunity to present our sport to a wider audience.

Deleted: the

While competition ~~to our sport~~ has grown dramatically over the past six decades, from lotteries to casino gaming, horse racing in California has been able to maintain a niche in the market without any expanding into new forms of gaming. However, over time, revenues have declined and land values have increased. ~~These circumstances have created~~ difficult decisions for race track owners.

Deleted: ing

Given Bay Meadows Land Company's decision to move ahead with the development of their property, it is more important now than ever, that the industry in Northern California stands firmly together to keep racing alive and well. The industry ~~is~~ ready to assist Bay Meadows with their transition and move the horses to alternate training facilities. ~~We are deeply concerned about the impact on~~ frontside employees, trainers and backstretch workers ~~during this transition.~~

Deleted: needs to stand

Deleted: F

Deleted: will all be impacted

Through these difficult times has come unprecedented cooperation among the remaining parties in the industry to work together to share resources and grow the sport. ~~By working together, we will create a more stable future for our employees, backstretch workers and trainers.~~ While the road ahead will be a difficult one, ~~the organizations signing below are committed to working~~ within the industry and with the legislature to ensure the long-term viability of racing in Northern California.
